An investment in a Money Market Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although the portfolio seeks to preserve the value of your investment at \$1.00 per share (unit), it is possible to lose money by investing in the fund.

Variable annuities are long term vehicles designed for retirement purposes. Withdrawals or surrenders may be subject to surrender charges. Amounts withdrawn may be subject to ordinary income tax, and if taken prior to 59½, a 10% IRS penalty may also apply. Withdrawals have the effect of reducing the death benefit, any living benefits and cash surrender value. Variable annuities are sold by prospectus. Please refer to the appropriate prospectus for more complete information, including fees, limitations, age restrictions and risk factors that may apply. **You should read the prospectus carefully before purchasing a contract.**

Investing in an annuity through a tax-advantaged retirement plan such as an IRA provides no additional tax advantage from the annuity, and should only be considered if it makes sense because of the annuity's other features, such as lifetime income payments or death benefit protection.
